

Completion Rates & Student Right -to-Know Act

Graduation rate data provide information on institutional productivity and help institutions comply with reporting requirements of the Student Right-to-Know Act (1990) and the Higher Education Act, amended (2008). Graduation rates data are collected for full-time, first-time degree and certificate-seeking undergraduate students.

Data collected include:

- Number of students entering the institution as full-time, first-time degree or certificate-seeking students in a particular year (cohort), by race/ethnicity and gender;
- Number of students overall completion rate, by race/ethnicity, gender, and Pell status; and
- Number of students who transferred to other institutions.

Zion Massage College posts the most current Gainful Employment Disclosures on the Disclosures page of the school's website. Please visit <https://zmc.edu/consumer-disclosures/> to review school information as well as data such as Completion and Placement rates.

Zion Massage College prepares its students to work directly in the field and therefore does not have a Transfer-Out Rate of students enrolling in another Title IV program.

For more information regarding the data collected in the IPEDS Graduation Rate Survey (GRS), please visit <http://nces.ed.gov/ipeds>.

Student Right to Know Act:

"Also known as the "Student Right-to-Know and Campus Security Act" (P.L. 101-542), which was passed by Congress November 9, 1990. Title I, Section 103, requires institutions eligible for Title IV funding to calculate completion or graduation rates of certificate- or degree-seeking, full-time students entering that institution, and to disclose these rates to all students and prospective students. Further, Section 104 requires each institution that participates in any Title IV program and is attended by students receiving athletically-related student aid to submit a report to the Secretary of Education annually. This report is to contain, among other things, graduation/completion rates of all students as well as students receiving athletically-related student aid by race/ethnicity and gender and by sport, and the average completion or graduation rate for the four most recent years. These data are also required to be disclosed to parents, coaches, and potential student athletes when the institution offers athletically-related student aid. Zion Massage College has no athletically related programs; therefore ZMC students do not qualify for athletically related student aid.

The Graduation Rates component of IPEDS was developed specifically to help institutions respond to these requirements. See Graduation Rates for the current description of data collected.” (<https://surveys.nces.ed.gov/ipeds>)

Please visit <http://nces.ed.gov/collegenavigator> to view Zion Massage College’s information. College Navigator is hosted by the US Government to provide information on all schools to prospective students.

The HEOA (Section 488(a)(3)) requires that completion/graduation rates must be disaggregated by gender, major racial and ethnic subgroup (as defined in IPEDS), recipients of a Federal Pell Grant, recipients of a subsidized Stafford Loan who did not receive a Pell Grant, students who did not receive either a Pell Grant or subsidized Stafford Loan.

Below are the 2018 & 2019 overall average completion/graduation rates at Zion Massage College.

Year	2018	2019
Graduation Rate	88%	93%
Male	33% (12)	22% (9)
Female	67% (24)	78% (32)
