

Disbursement of Books and Supplies

Financial aid must first be applied toward tuition, fees, and room and board and other approved charges. A student may use any remaining credit balance, after payment for charges is considered, for the purchase of books and supplies during the first 7 days of each semester. ZMC offers a Book and Table package, which includes program textbooks and a Massage Therapy table. If there is not a credit balance available to a student, any purchases of books and supplies will be the responsibility of the student.
